

Bagged Soils

Glacier Gold Potting Soil

1.5cf \$8.99

Use for container pots and raised gardens. This value priced potting soil combines the benefits of Glacier Gold Compost with added materials to provide a quality soil product. *Blend of mineral soil, sphagnum peat moss and perlite.*

Glacier Gold Professional Growers Mix

1.5cf \$9.99

Excellent for container pots, baskets and vegetables. This premium potting soil is what we use to plant the majority of our annuals, custom container plantings and hanging baskets. *A soilless mix, contains compost, perlite, coconut coir and peat moss.*

Espoma Organic Potting Mix

4QT \$4.99

8QT \$7.99

16QT \$10.99

Good to use for all indoor and outdoor containers. A premium organic potting soil designed to promote root growth, increase water uptake, reduce drought stress and transplant shock. *Blend of sphagnum peat moss, aged forest products, humus, perlite, limestone, earthworm castings, alfalfa meal, kelp meal, feather meal, yucca extract and Myco-tone®.*

Espoma Organic Seed Starter

8QT \$7.99

All-natural seed starting mix used for all seedlings and cuttings, promotes root growth and improves moisture retention. *Blend of sphagnum peat moss, perlite, peat hummus, earthworm castings and lime.*

Espoma Organic African Violet Mix

4QT \$4.99

All-natural premium soil mix for African Violets and other house plants. Designed to improve aeration, moisture retention and promote root growth. *Sphagnum peat moss, peat hummus, perlite and limestone.*

Espoma Organic Cactus Mix

4QT \$4.99

8QT \$7.99

All-natural potting soil mix for cactus, succulents and citrus. Provides optimum aeration and drainage while promoting root growth. *Peat hummus, sphagnum peat moss, sand, perlite, earthworm castings and limestone.*

Top Soil

1cf \$4.99

Use in the landscape, as a top dressing or filler as well as any land reclamation projects. *A mixture of 3/8 minus screened bark, peat moss and native soils.*

Raised Bed Garden Soil

1.5cf \$9.99

Good for raised garden beds for annuals or veggies and can be used in the landscape when added soil is needed. *A unique blend of peat moss, organic bark soil, coco coir, compost & perlite.*

Bagged Soil Amendments

Glacier Gold Compost

1.5cf \$6.99

Use to amend garden soil, rejuvenate container soil, top dress fruit patches and landscape trees, shrubs and perennials to add nutrients and keep weeds down. Great for breaking up clay soils to improve drainage and helps sandy soils with moisture retention.

OMRI Yard Care Certified Organic Compost

1.5cf \$8.50

This is a great way to add nutrients to containers or garden beds organically. If organic gardening is in your practices, then this is the compost for you.

Chicken Manure

1cf \$6.99

3.75lbs \$6.99

An excellent source of nitrogen for Vegetable gardens, flower beds, or any general soil preparation.

Magic Mountain Compost & Manure

1cf \$4.99

Another great way to add nutrients to a vegetable garden, flower beds, or any general soil preparation.

Elemental Sulfur

5lbs \$9.99

50lbs \$29.99

Good to use on all types of gardens and lawns to achieve the optimal soil pH for growing plants. This mineral lowers the pH of alkaline soils and is great for acid loving plants.

Espoma Soil Acidifier

6lbs \$10.99

Good to use on acid loving plants (blueberries, hydrangeas, rhododendrons, azaleas etc.). Helps lower pH of alkaline soils to achieve the optimal soil pH for growing plants.

Canadian Sphagnum Peat Moss

2.2cf \$24.99

Good to use as a soil conditioner to help improve soil structure in raised beds and vegetable gardens.

Espoma Blood Meal

3lbs \$13.99

An ideal all-natural nitrogen supplement for all annuals and perennials. Promotes rapid growth and deep, dark green color.

Espoma Bone Meal

4lbs \$10.99

Ideal for bulbs, flowers and roses to add an all-natural source of phosphorus and nitrogen. Helps plants develop sturdy root systems and promotes plant growth.

Espoma Kelp Meal

4lbs \$24.99

An excellent natural and organic supplement to other plant foods and soil conditioners. Provides nitrogen and potash to promote plant growth.

Espoma Garden Lime

6.75lbs \$5.99

Usually this is not needed in our area of Montana due to our already high soil pH. Although, there is an exception, Clematis. This mineral raises the pH of acidic soils.

Espoma Organic Earthworm Castings

4QT \$12.99

For use on indoor and Outdoor plants. All-natural organic source of nitrogen for improved plant growth.

Espoma Organic Perlite

8QT \$10.99

Good for blending a custom potting mix for seed starting. All-natural ingredient that improves drainage and aeration for root growth. Helps loosen heavy soils and prevents compaction.

Bagged Mulch

Mini Nugget Bark

2cf \$6.99

Made up of finely ground bark, this product is excellent for both moisture retention and weed suppression. It is good for perennial beds and will break down over several seasons after which you can till it into the soil.

Small Nugget Bark

2cf \$6.99

These uniform pieces of conifer bark work well for paths. The small nuggets are easy and safe to walk on but do not scuff up easily. Small bark is good as a decorative mulch for landscape beds and like all mulch, helps hold moisture in and keep roots cool.

Medium Nugget Bark

2cf \$6.99

Larger pieces of chipped conifer bark are great for mulch around large shrubs and trees. The look is clean and finished. Use at least a 3-inch layer for good weed suppression.

Shredded Western

2cf \$6.99

This is a blended product with small and medium bark chips plus shredded pieces of wood. The varied sizes of material help it to 'knit' together and stay in place. It is a good choice for mulching shrubs and trees or for paths.

Western Cedar Mulch

2cf \$6.99

This aromatic product is used as a decorative ground cover for flower beds, tree plantings and pathways. Cedar provides a natural weed barrier, helps plants retain moisture and protect their roots from harsh temperatures. Plus, oils in the cedar provides an added benefit of a natural bug repellent.

Soil Pep

2cf \$6.50

Used to amend garden soil (to improve texture & break up clay) and as a mulch for landscape beds, tree plantings or fruit patches to prevent weeds. This dark blend of finely ground bark & chips contains no nutrient value.

Glacier Gold Compost

1.5cf \$6.99

Use to amend garden soil, rejuvenate container soil, top dress fruit patches and landscape trees, shrubs and perennials to add nutrients and keep weeds down. Great for breaking up clay soils to improve drainage and helps sandy soils with moisture retention.
